## Roman Family

- Extends well beyond the traditional norms for family. Step parents were hated and families get crazy very quickly.
  - **Paterfamilias** - father (head) of the family.
  - **Pater Patriae** - head of the country.
  - **Right of Life or Death** - father can kill those in the family. It was almost required to go to the **Consilium** to go before exercising this right, but not required to follow the advice.
  - **Spintria** - coin for brothels
